

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

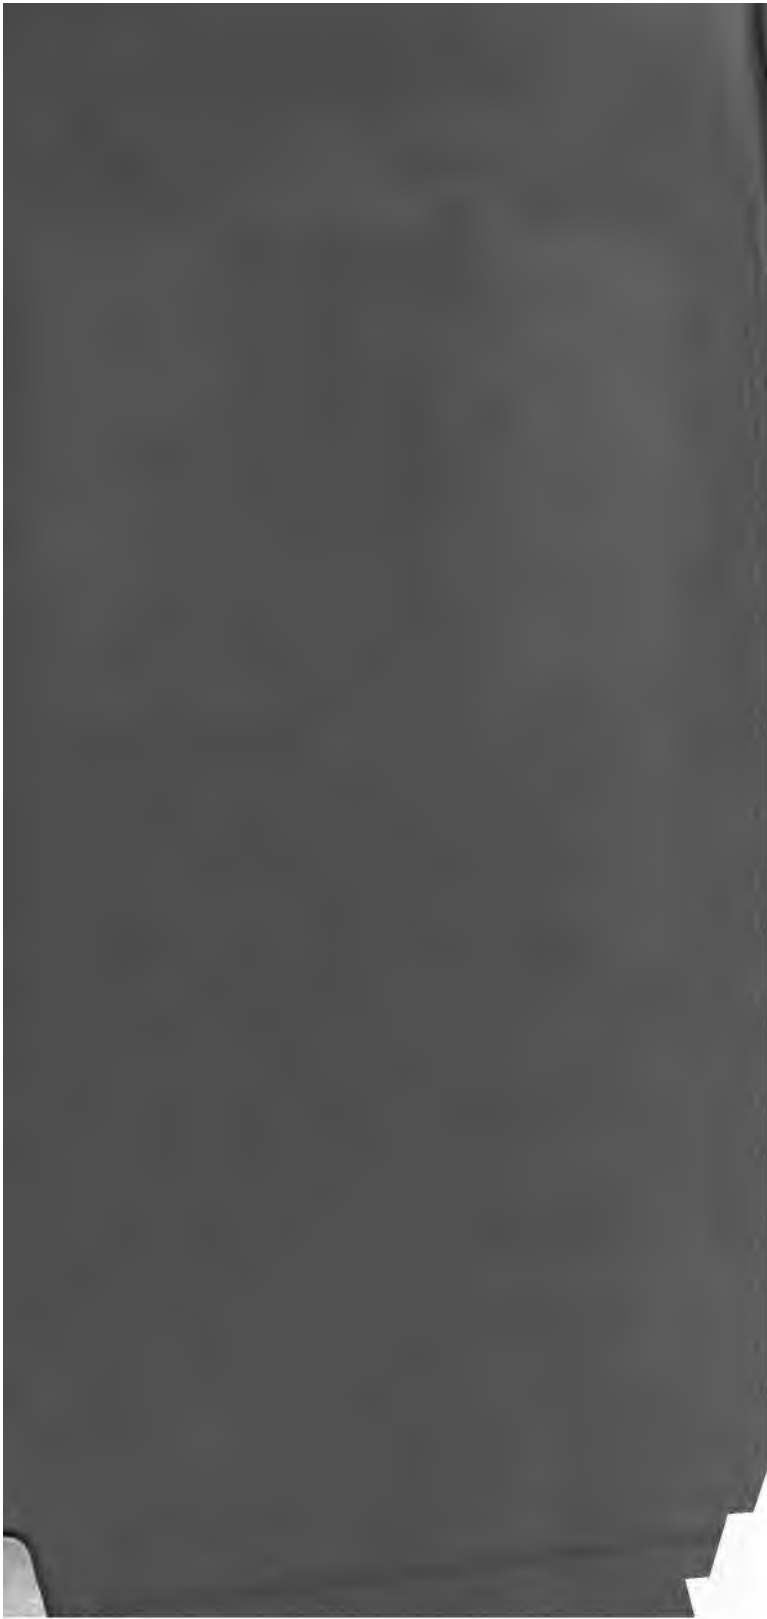

About Google Book Search

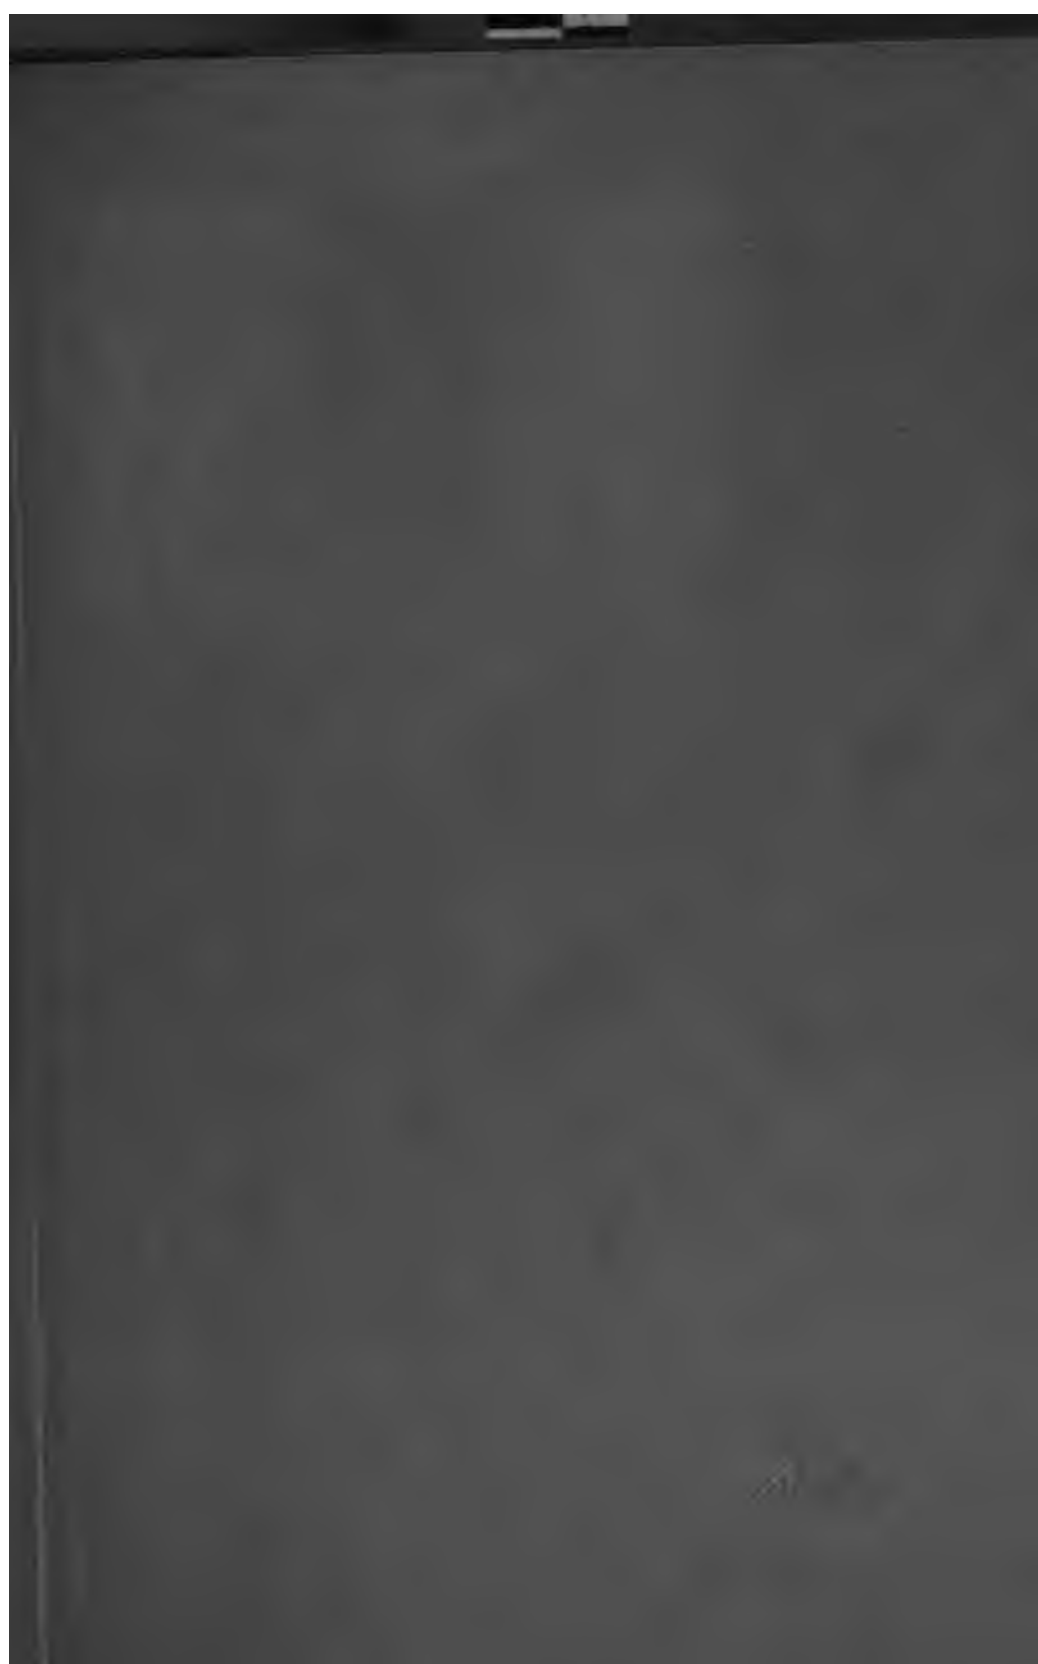

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. FOREWORD

THERE ARE 1440 MINUTES IN TODAY.
TAKE FIVE OF THEM AND READ THIS;
TAKE FIVE MORE AND READ IT AGAIN—
THOSE TEN MINUTES MAY SET YOU
THINKING AND THINKING MEANS
MONEY.

SUCCESS needs no press agent:
and therefore, the achievements
of the American Play Company
need none.

To our own clients, the past
of the American Play Company
speaks for itself; to those who
must eventually become our
clients, its present and its future may, however, be
mentioned in certain salient features.

The policy of the company is to make prices as
reasonable as a legitimate profit will allow. The
stock manager cannot in these times of vital compe-
tition afford artificial prices, such as some agents
demand. To do so must inevitably court failure,
and each failure means the elimination of at least
one outlet for the sale of stock plays.

The American Play Company stands for Volume
of Business at PROFITABLE but not EXCESS-
IVE rates; it believes that ten weeks at \$250 each
mean more to a client, buyer or seller, than one
week at a thousand dollars. Its financial policy
makes for the success of the manager, and success-
ful managers mean successful leases,—and those
mean profits. The authors and owners, whom this

their judgment. We cannot do this through another agent.

We make our LEGITIMATE profit and we don't see why we should SPLIT that profit with a third person. Here are our goods; if you WANT them you know where to GET them, and if you propose to maintain a SUCCESSFUL stock company, you've got to have some of them in any event.

We will not handle plays that others are handling, because a division of interest leads to confusion, to errors in bookings, to deliberate cut throat underbidding to compete with a rival of arbitrary overpricing to prevent the sale of a rival agent's play—all of which creates irritation, loss of time and MONEY—and OUR time IS money. We believe in CONCENTRATION on our own properties, in building up of our OWN BUSINESS and letting the other fellow worry about what we are doing. RESULTS TALK.

We want YOU to have the BENEFIT of our forthcoming monthly magazine "IN STOCK," of our weekly stock letters, of our special booklets, of our press matter, scene plots, flashlights, and our own personal correspondence on stock. And we want on our side to have the BENEFIT of YOUR appreciation of what WE are doing for you. We're doing it for you and for ourselves, not for the other agent. We want to get in direct CONTACT with you. Getting there brings us BUSINESS, and it's for that we have the LARGEST offices, the BIGGEST staff, MORE plays and MORE clients than any other agent for stock IN THE WORLD.

When we issued the catalogue two years ago no one had ever attempted anything like it:—no one has since even tried to copy it. The answer is simple; IT COSTS MONEY.

TWO THOUSAND ONE HUNDRED AND FIFTY DOLLARS goes into the making of this

edition of ONE THOUSAND copies. There are today, fifty stock companies in the United States—that means it costs us FORTY DOLLARS to have this TALK with YOU. A letter would cost TWO CENTS, but we believe that our belief in our own methods and policy, backed up by paying liberally for the privilege of putting our ideas before you in a permanent form of this kind is going to pay us and pay you. RESULTS TALK and so does MONEY. We wouldn't spend TWO THOUSAND DOLLARS to advance IDEAS WE DIDN'T BELIEVE IN, to advertise a policy that we didn't know was SOUND and SUCCESSFUL, and we wouldn't want your business unless we expected to KEEP IT—and to keep it we Must Make Good. And to attract your attention, to get you STARTED our way, we're putting in our income from the next \$20,000 worth of plays we lease.

We think it's pretty good EVIDENCE of our SINCERITY and we believe you'll think so too. Let's Get Together. IT'S UP TO YOU.

Editors Notes

THE American Play Company presents herewith the second edition of its catalogue of Plays and their Players. The first edition issued two years ago has become the encyclopedia of the theatre. It is a work of reference in libraries, for in no other

publication can there be found the current and historical information, in so simple a form, that this volume presents. And it is to be remembered that this catalogue is given with the compliments of the Company, not primarily as an advertisement but rather as a compliment to our clients who have made the Company what it is—the foremost organization for the acquisition and leasing of produced successes for stock and road tour.

From page 308 to page 341 will be found a partial list of certain plays now on tour and not available for stock, for which when they become so, we shall be the exclusive agents.

At the end of the catalogue are blank pages for which from time to time we shall issue loose leaf casts and data of new released stock plays that they may be inserted—thus maintaining the book as a current record of the best stock plays until the third edition of the catalogue is issued.

The system of indexes at the end of this book will be found especially complete. There is a full index of plays by title, of authors, and an indexed division of plays into groups, such as farce, costume, comedy, drama and melodrama. This method of cross indexing will be found extremely useful.

Additional copies of the catalogue for those who are not actively associated with the stock business or for those interested in data of the theatre, may be procured at a cost of one dollar each.
